Machine Operator-Wire Drawer. Union Job Opportunity.

Do you like to sew, knit, cross stitch, or do home craft projects? If yes, we have an opportunity for a Machine Operator-Wire Drawer position and we are willing to train. Sigmund Cohn Corp. is a leading manufacturing company that serves a variety of industries including medical device, aerospace, semi-conductor, automobile, temperature sensing, and thermocouple. The Wire Drawer operator will perform repetitive workstation or line production operations to produce wires using various process procedures, equipment, and materials.

Job Duties:

- Operating machines that draw wire through dyes to achieve requirement measurement
- Visually inspect wire under magnification to verify correct specification
- Frequent walking between machines to check on production status (works multiple machines at the same time)
- Follow standard operating procedures (verbal and written)
- Follow safety protocols
- Maintain a clean and organized work area
- Initiate or participate in continuous improvement
- May include cross training on other production machines

Skills Required:

- Strong communication skills, along with ability to read/interpret written instructions in English
- Conduct basic math calculations using a handheld calculator
- Detail and process oriented
- Ability to lift 10 lbs
- Strong fine motor skills and hand dexterity for drawing wire
- Ability to stand for long periods and walk up and down stairs (no elevator)
- Repetitive hand and wrist motions while drawing line and performing operations
- *Positive, flexible, and focused attitude, with emphasis on a can do, hands-on approach*
